

Smart diagnostics

Smart **StarLine S96 BT GSM** automatically diagnoses your car online, sends a warning SMS with an error code and malfunction description, saves your time and money on visiting your dealer service for checking the errors reason.

Complete vehicle security

In order to get a high level security and comfort, we recommend you apply to StarLine authorized installer for advice on comprehensive protection for your car.

You may enhance your car security with:

StarLine R4 digital relay module – auxiliary analog engine blocking and control over hood-lock

StarLine hood-lock – reliable protection of engine compartment from unauthorized access

StarLine® S96 BT GSM

SMART SECURITY – TELEMATICS SYSTEM

www.alarmline.com

SMART SECURITY AND COMFORT

Reliable car security and telematics system with intelligent remote start, integrated GSM interface, authorization with Bluetooth Smart technology, quick and convenient installation in modern cars with CAN and LIN digital buses.

SMART SECURITY

AUTHORIZATION WITH BLUETOOTH SMART

To start driving owner should pass authorization by small wireless tag or smartphone with StarLine mobile application (available for iOS and Android smartphones with Bluetooth 4.2 and above)

KEYLESS ACCESS PROTECTION

StarLine intelligent protection will block unauthorized attempts to disarm factory security and open car by hacking original keyless access system. Blocking is activated when tag or registered smartphone is out of preset detection area.

INVISIBLE ENGINE BLOCKING

Unique patented iCAN technology guarantees reliable protection by hidden engine blocking through a factory digital CAN or LIN bus

ANTI-HIJACK

Even if car is carjacked with stolen car keys, StarLine remote and tag, it is still possible to stop the car with command from smartphone. The engine will be stopped with smart algorithm at a safe speed. StarLine can also protect you from robbery in a trip if you activated anti-hijack mode by a tag loss.

SMART 3D SENSOR

Smart 3D control with remote settings registers shocks, car jacking-up, evacuation and evaluates driving style safety

SUPER SLAVE

Control over car security with factory remote and reliable additional authorization with wireless tag or smartphone with StarLine Mobile App

PIN-CODE AUTHORIZATION

Additional authorization provides reliable protection against hijacking, enhancing security functions of factory car alarm. Trip is allowed only after entering an individual PIN-code with car original buttons

RECORD ENERGY EFFICIENCY

StarLine guarantees low energy consumption, saving sufficient car battery charge up to 60 days in arm mode due to patented progressive technologies and firmware solutions

EXTENDED TEMPERATURE RANGE

Due to high quality components StarLine security-telematic systems stably operate in severe climatic conditions at temperature from -40°C to $+85^{\circ}\text{C}$

CONVENIENT SERVICE

GSM TELEMATICS

GSM interface allows control over all secure and service functions, receive alarm status alerts to mobile phone and StarLine Mobile App

BLUETOOTH SMART CONTROL

Bluetooth Smart provides reliable control over car security and service functions from your smartphone even out of GSM network (available for iOS and Android smartphones with Bluetooth 4.2 and above and StarLine Mobile App)

FREE GPS+GLONASS TRACKING

Monitor your vehicle location with up to few meters accuracy at free and easy website starline.online or StarLine Mobile App

2CAN+2LIN INTERFACE

2CAN+2LIN interface provides easy, convenient and safe installation of StarLine security system to modern cars with CAN and LIN bus

REMOTE ENGINE START

Intelligent remote and automatic engine start at a determined temperature, time, weekday or by battery voltage

TURBO TIMER

StarLine extends turbocharged engine life by proper turbine cooling after a trip

SMART KEYLESS BYPASS

Save money on purchasing an additional bypass module or duplicate key to implement remote engine start on CAN and LIN equipped cars

PREHEATERS CONTROL

Control over Webasto, Eberspächer preheaters by GSM interface with SMS or StarLine Mobile App

FLEXIBLE CONFIGURATION

Programmable channels with flexible logic settings for extended vehicle security and comfort functions
